

Rally Obedience with Sabine

Rally focusses on the teamwork between dogs and their human. You and your dog navigate, side-by-side, through a course of 10-20 different signs. The signs indicate a skill for your dog to perform, like sit or down. You and your dog move continuously throughout the course with a clear sense of teamwork. Rally is about working happily together while performing the necessary skills.

Sabine is committed to positive, force-free training that is enjoyable for both ends of the leash and forms a strong, trusting bond between dog and handler.

Requirements: Dogs have to be friendly with strangers and non-reactive to other dogs moving around. Dogs should be able to walk on leash without pulling and know sit and down. They need to be under control on a harness or flat collar.
